

INDUSTRIAL DIAGNOSTICS

Compressed Air Specialists : Design, Install, Maintain!

INDUSTRIAL DIAGNOSTICS provides these services and products to meet the specific needs of our customers.

COMPRESSOR EQUIPMENT

Compressors

Reciprocating
5-30 hp
Lubricated
Oil free, Gas & Electric

Dryers & Filters

Refrigerated
10-10,000 cfm
Direct expansion
Thermal mass

Accessories

Oil/Water Separators
Chemical filter and Evaporative technologies

Rotary Screw
7.5 – 500 hp
Lubricated
Oil free

Desiccant
10-10,000cfm
Heatless purge
Heated purge
Blower purge

Controls

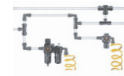

Custom and semi-custom panels for local logic, sequencing, and data acquisition
Wired and wireless

Centrifugal
250+ hp
Oil free

Filters
Dust, Coalescing
Premium efficiency
Low ΔP

Piping

Extruded aluminum
Zero ΔP

SERVICES

Project Services

Compressor System Design

- Reciprocating, rotary screw and centrifugal technologies
- Refrigerated, and desiccant drying technologies
- Auditing of existing systems
- Facility planning / Benchmarking

Installations

Civil, mechanical, and electrical

- Stick and pole building construction, and equipment pads
- Threaded, sweat, soldered, and victaulic black, galvanized, SS, copper, and aluminum piping systems
- Wired and wireless custom control packages

Equipment Services

Compressor Maintenance

- Preventative maintenance
- Repair
- Emergency
- Remote monitoring

OTHER EQUIPMENT

Kaeser Portables
50 – 1000cfm compressors
Kobota, Duetz, and Mercedes diesel engines

Ingersoll-Rand Tools
Industrial hand tools

Utility Vehicles
By Club Car
Gas & Electric

WE DISTRIBUTE THE FOLLOWING MANUFACTURER'S EQUIPMENT:
